

## The Registered Safety Supplier Scheme

Become a Supporter  
and demonstrate your  
commitment to Safety

*“Anyone can sell Safety... but you wouldn't buy  
Safety from anyone”*

## BECOME A SUPPORTER OF RSSS

### *What is the Registered Safety Supplier Scheme?*

**BSiF has created the Registered Safety Supplier scheme** to improve the quality of protection offered to users of Personal Protective Equipment (PPE) throughout the UK. The need for the scheme is due to the non-compliant, potentially unsafe, counterfeit and illegal safety products that are present in the market place.

The RSSS provides a quality assurance scheme for the purchase of genuine PPE that ensures the products are up to standard. Manufacturers and Distributors who have signed up to the scheme will:

- Formally declare and commit to selling only Certified PPE and safety products that perform to claims made
- Submit their products to random independent scheme testing
- Commit to having their customer facing staff educated and accredited in the Safe Supply Course
- Maintain a company Quality Policy

The Registered Safety Suppliers commitment is that the PPE you purchase will do the job it is intended for and will keep you safe as it should do.

### *Why Become a RSSS Supporter?*

#### **Increase your profile—**

**Logo:** All RSSS Supporters benefit from their commitment to sourcing quality products by having their company logo put onto the Scheme website as an official 'Supporter'. They also are able to use the RSSS Supporters logo to demonstrate the commitment they have made in sourcing PPE the right way.

**Website & Resources:** All RSSS Supporters website URL's are added to the scheme website meaning the site visitors have easy access to you and your business. As a supporter you will have access to campaign downloads and independent advice through your individual login.

**Networking:** All RSSS Supporters are invited to attend networking events designed to bring the PPE supply chain closer together, a great way to make new business contacts.

#### **Ethical and Responsible Purchasing—**

RSSS Supporters declare that they will always seek to purchase their PPE/Safety equipment from Registered Safety Suppliers. They do this as they realise the importance of providing their employees with Safety equipment that will work and keep them safe!

**Procurement departments will save time and money by selecting reliable & compliant RSSS members for all their PPE/Safety Needs.**

**Cost:** The scheme is **FREE** to support!! There is no payment required to be a supporter of the scheme, it just offers you the chance to help in the cause of removing non-compliant, unsafe and ineffective PPE from the market.

If you currently buy PPE from a non RSSS member ask yourself why wouldn't they be a member and why wouldn't you be a Supporter?
